

Smart Home Hub - Product Manual

Product Overview

The Smart Home Hub connects and manages compatible smart devices from a single dashboard.

Package Contents: Smart Home Hub, Power Adapter, Ethernet Cable, Quick Start Guide.

Installation: Connect the hub to power, connect it to your router, and wait for the status light to turn green.

Mobile App Setup: Download the app, create an account, scan the QR code, and follow the setup instructions.

Adding Devices: Open the app, select Add Device, and follow the pairing instructions.

LED Indicators: Green = Connected, Yellow = Setup Mode, Red = Network Issue.

Troubleshooting: Restart the hub and verify internet connectivity if the device goes offline.

Factory Reset: Hold the reset button for 10 seconds until the LED flashes red.

Warranty: Includes a one-year limited warranty.
